

PROPOSAL · APRIL 2026

Website Redesign & Brand Overhaul

A complete digital transformation for Richmond's most trusted adult high school diploma program.

Prepared for Dream Academy Inc · 2505 Chamberlin Ave · Richmond VA 23222

THE PROBLEM

Your current website is costing you enrollments.

Every visitor who lands on dreamacademyrichmond.com is silently forming an opinion about whether Dream Academy is worth their time. Right now, that opinion is working against you.

No Brand Identity

Generic Wix template indistinguishable from a thousand other sites.

Broken Navigation

"Elective Courses" and "Transcript Requests" links point to the wrong pages.

Stock Photo Phone

The "call us" icon is literally a stock photo of a purple flower.

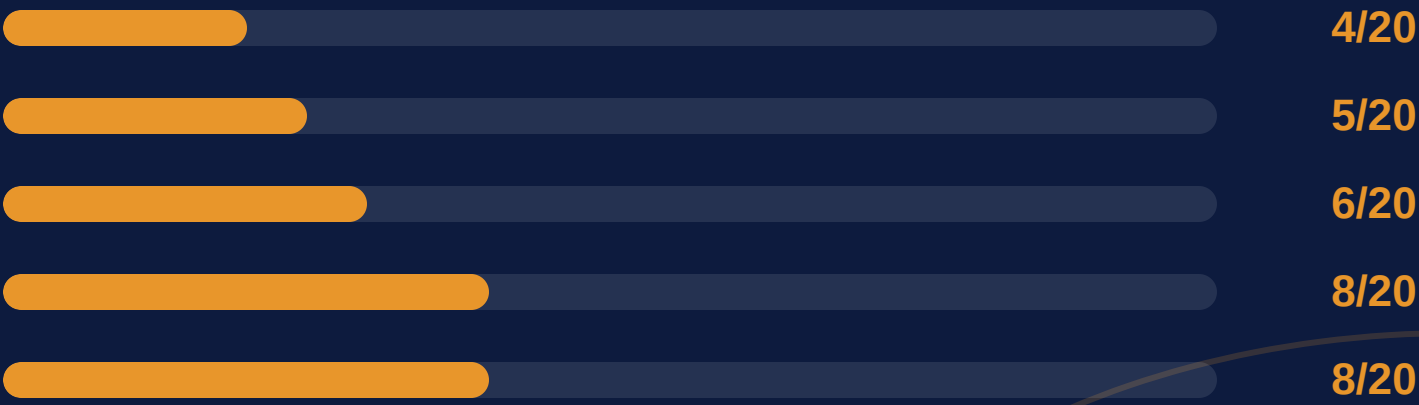

No Hero Hook

No headline, no CTA, no reason to stay past the first scroll.

We scored every page.
The verdict isn't kind.

CRITICAL ISSUES

Four bugs losing you students right now.

CRITICAL

Swapped Navigation Links

Clicking "Elective Courses" takes visitors to Transcript Requests — and vice versa. Prospective students hit a dead end and leave confused.

CRITICAL

Flower Photo as Phone Icon

The phone call icon in your header is actually a stock photo of a purple flower. This erodes trust instantly — professional visitors notice.

CRITICAL

Generic Wix Template

Zero brand identity. Your site looks identical to thousands of small-business templates, with no connection to Dream Academy's mission.

CRITICAL

No Hero Hook or Dominant CTA

The homepage has no clear headline, no primary call-to-action, and a contact form competing visually with the page title.

MAJOR ISSUES

Beyond the bugs, four structural problems.

MAJOR

Social Proof Buried

Testimonials and graduate stories are hidden below the fold — visitors never see the strongest trust signals you have.

MAJOR

"Richmond VA" × 14

The phrase is repeated 14 times per page. Google reads it as keyword stuffing. Users read it as SEO spam.

MAJOR

No Program Comparison

No clear comparison showing how Dream Academy differs from GED programs or online diploma mills. Visitors can't make informed decisions.

MAJOR

No Credibility Metrics

No graduation stats, no completion rate, no "500+ graduates" — you have the proof, you're just not showing it.

OUR SOLUTION

A complete digital rebuild, tuned for enrollment.

We don't patch. We replace. Every pixel is designed around one question: will this visitor call (804) 228-8200 today?

Custom Brand System

Navy & amber palette, typography pairing, reusable components — a visual language you own.

New Homepage

Nine sections optimized for conversion. Hero, stats, process, programs, testimonials, FAQ, CTA.

Mobile-First

Responsive at 900px and 480px. 70% of your visitors are on phones — they come first.

BEFORE VS AFTER

Side by side.
